SIMPLIFIED PAYMENT INTEGRATIONS FOR B2B MERCHANTS RUNNING SAP

EVO is global leader in evolving technologies that makes fast, secure credit card processing more efficient and cost effective for organizations.

EVO Payments, a leading global payment processor, acquired Delego, one of the largest providers of SAP-integrated payments, in late 2019. The acquisition broadened EVO's proprietary B2B payments offerings to new and existing merchants running SAP ERP.

Businesses that do not integrate their payment ecosystem into SAP face common challenges. They must manage disparate systems that are not PCI compliant and have to rely on time-consuming manual reconciliations at risk of human error in the order-to-cash process, including accounts receivable, invoicing, and collections.

A complete payment solution for SAP ECC and SAP S/4HANA

The simplified integration with EVO and Delego creates a powerful end-to-end solution for SAP merchants looking to automate receivables, streamline the payment workflow, increase cash flow, and save on payment acceptance costs.

A single integration will allow SAP merchants to:

- SCALE THEIR ENTERPRISE PAYMENT ECOSYSTEM AS THE BUSINESS GROWS
- STREAMLINE, OPTIMIZE AND SECURE MULTICHANNEL PAYMENTS
- GAIN WORKFLOW EFFICIENCY, RESULTING IN SUBSTANTIAL COST-SAVINGS ACROSS MULTIPLE AREAS
- SAVE WITH THE LOWEST OVERALL COST ON PAYMENT ACCEPTANCE WITH AUTOMATED COST REDUCTION ON TRANSACTIONS
- SECURE DATA WITH TOKENIZATION AND PCI-VALIDATED POINT-TO-POINT ENCRYPTION
- ACCEPT PAYMENTS IN MORE THAN 50 GLOBAL MARKETS ACROSS 150 CURRENCIES
- RECEIVE PERSONALIZED 24/7 SUPPORT
